RESUME SUMMARY

Experienced and skilled Full Stack Web Designer with a strong background in web development and design. Proficient in front-end and back-end technologies, I specialize in creating visually appealing and user-friendly websites. With expertise in HTML, CSS, JavaScript, and a range of frameworks and tools, I am capable of delivering end-to-end web solutions. Committed to adhering to best practices, optimizing performance, and providing exceptional user experiences.

WORK EXPERIENCE

Agave Lab, Mexico City, México

Front-End Developer | January 2023 – May 2023

Collaborate with the team as a Junior Front-End Developer for a project, contributing to the development of web applications.

Autonomous, México

Tools (GitHub, Gitlab, Figma, Trello, Notion)

Attention to detail and adherence to timelines

ADDITIONAL INFORMATION

Fluent in English and Spanish

Highly adaptable and eager to learn new technologies

Strong teamwork and communication skills

ABOUT ME

Furthermore, I am passionate about the field of artificial intelligence and its vast potential. Being specialized in the area of intelligence, Brita is a company that particularly captures my interest. With its expertise in artificial intelligence and its various aspects, including machine learning and more, Brita provides an ideal environment for personal and professional growth. Joining a company of this nature would be a dream come true, allowing me to further develop my skills within the organization while contributing to its success.

I am eager to collaborate with talented professionals, tackle complex challenges, and create innovative web solutions that leverage the power of artificial intelligence. Together, we can deliver cutting-edge products and services that enhance user experiences and drive success in this exciting and rapidly evolving field.

Regards,

Hans Ferdinand Trauwitz Villarreal
